

Tabloid Turmoil

Many stories published in the tabloids seem absurd.

- Rolls Royce workers become unemployed after toiling to produce cars quicker than machines!!
- Asteroid destroys poisonous oysters belonging to the Royal family!
- The oiliness of some moisturisers makes people's faces disjointed!!
- Alkaloid batteries are rhomboid not trapezoid!
- A flamboyant clairvoyant is charged with making appointments which exploit employers!

Always take care as what you read may not always be true!
